Studies: 1997 – Ph degree in drilling, Oil & Gas University, Ploiesti
1995 – 1997 - Open University – CODECS
1976 - 1981 – Oil & Gas Institute Ploiesti, Romania
1970 – 1975 – Oil & Gas College, Campina, Romania

Experience :

I was involved all period of time in Drilling as:

- Field engineer for 3 years;
- Designer engineer and Researcher in ICPT Campina for 20 years (I reached the high level as Senior Researcher); between 1995-1997, I was Chief of Drilling Laboratory.
- From 2005 he was co-opted in OMV Petrom staff as Engineering Manager- West Region, Well Delivery Manager. Actual: Senior Department Manager and Local Skill Pool Manager.

Technical & Scientific contribution

As Researcher in ICPT Campina and as Drilling specialist in OMV Petrom, I had an important contribution in the implementation of new technologies in Romania as: aerated mud drilling, cementing with low density slurries, SAS and swell packers in horizontal and high deviated wells, casing drilling and the impact of water activity in SBM fluid over the shale stability.

Editor in-Chief of Romanian Petroleum Review (RPR); on this time, I prepared and obtained the accreditation of review in Romania.

More than 12 Technical papers published in RPR.

A constant Lecturer for OMV Petrom staff at:

- Well Academy (Wien & Bucharest);
- Drilling Academy (Wien and Bucharest);
- Integrated Graduate Development program (Wien & Bucharest);
- Upstream Peer Training (Bucharest);
- In house trainings for DSV;
- Generate and lead a Monthly Forum for young drilling staff.

SPE activity

-Member of SPEROM (2000) and SPE International Romanian Section from the beginning of the section.

-For 2 years (2001-2003) Membership Chairman of SPE Romanian Section.

-Between 2014-2017- Chairperson of SPE Romanian Section – in this time all efforts of our section was focused on Students and Young Professional grow up.

I support their participation at a lot of student events in Russia, Poland, Spain, and Italy.

I initiated and coordinated the program for a group of 15 students from Loben University- Austria, for 1 week, in Romania.

In 2017, SPE Romanian Section was on the 1st place as number of members in Central and SE European Region while oil price crisis.

I tried to be an example for Romanian SPE Section being present with presentation on our monthly professional events (Bucharest, Ploiesti University, Bucharest University, Buzau and Sibiu University).

-Active participant in different technical and scientific SPE International events:

- Dubrovnik, Croatia (SPE ATW-2002)
- Wien, Austria (SPE ATW- 2004;
- Bucharest , Romania 2005;
- Sibiu, Romania 2010.

-A constant presence with Technical papers in Bucharest UPSTREAM Conferences (2014, 2015, 2017) and Drilling Engineering Association, Wien 2017.

- In 2014 I received Regional Drilling Engineering Award.
